

IGT Supplier Code of Conduct

International Game Technology PLC and its subsidiaries (collectively, “IGT”) strive to maintain the highest level of business standards and ethics, and we strongly encourage our Suppliers to follow our example. Our Suppliers are selected and evaluated beyond the basis of economic measures. We expect our Suppliers to fully comply with applicable laws and to adhere to internationally recognized environmental, social, and corporate governance standards. Our commitment to these business standards of excellence includes business ethics and regulatory compliance, human rights and labor practices, environmental regulations and protection, responsible mineral sourcing, health and safety, and confidential and proprietary information.

We expect that our Suppliers share our values and our commitments. We also expect our Suppliers to use their best efforts to implement these standards with their vendors and subcontractors.

This Supplier Code of Conduct outlines our expectations regarding the workplace standards and business practices of our Suppliers, along with their parent entities, subsidiaries, affiliates, subcontractors, and others who are within their supply chain. The expectations contained in this Supplier Code of Conduct are essential to our decisions to enter or extend existing business relationships. Each Supplier is responsible for ensuring that its employees, representatives, and subcontractors understand and comply with these guidelines. The expectations outlined in this Supplier Code of Conduct do not replace specific requirements in contracts. Rather, this Supplier Code of Conduct is intended to supplement the specific requirements in contracts. If a contractual term is stricter than the terms in this Supplier Code of Conduct, the Supplier must meet the stricter contractual requirement.

Diversity and Inclusion

It is IGT’s policy to provide contracting opportunities regardless of race, color, religion, gender, sexual orientation, gender identity or expression, pregnancy, marital status, national origin, citizenship, covered veteran status, ancestry, age, physical or mental disability, medical condition, genetic information, or any other legally protected status in accordance with local, state and federal laws.

Suppliers represent and warrant that they and each of their representatives follow all Anti-Tax Evasion Laws, including those against the facilitation of tax evasion.

Furthermore, Suppliers shall strive to reduce their consumption of energy and resources, as well as their waste and emissions.

Conflict Minerals

IGT complies with the final rule on conflict minerals adopted by the U.S. Securities and Exchange Commission. This rule requires the implementation of reporting and disclosure procedures regarding conflict minerals. IGT expects that Suppliers conduct appropriate due diligence to identify, disclose, and take remedial action if their products contain conflict minerals¹ that are used to finance conflict in the Democratic Republic of Congo or adjoining countries. IGT publishes its annual statement on Conflict Minerals on IGT.com, available at: [IGT 2021 Conflict Minerals Report](#). Individuals and Suppliers having concerns regarding conflict minerals non-compliance and or conflict mineral violations are directed to report that to the IGT PLC Integrity Line which is managed by an independent provider. The Integrity Line is a confidential way to anonymously report non-compliance or violations via telephone or the online portal, contact details of which can be found at <https://www.igt.com/explore-igt/about-igt/compliance>.

Health and Safety

Suppliers must ensure that their workers are provided with safe, suitable, and sanitary work facilities. Suppliers must have effective health and safety prevention and remediation policies and procedures in place that comply with industry, national, and international law and regulations. Suppliers must provide to employees and their own suppliers and subcontractors protective equipment and training necessary to perform their tasks safely.

Confidential and Proprietary Information

IGT Suppliers must ensure the protection of all sensitive information, such as confidential and protected personal information that must be used only for business purposes. For all information transferred electronically, Suppliers are expected to implement appropriate security mechanisms and systems, and to notify IGT of any suspected or actual data breaches.
